

Aerospace Dimensions Module 6

Jeffrey D. Morris, MAJ, CAP

EclipseCrossword.com

Across

- 5. Russia's space station of the 1980s and 1990s
- 7. Also known as the Space Transportation System (2 words)
- 9. These probes gave us pictures of Jupiter and Saturn
- 12. System of satellites that tell you where you are
- 14. manned spaceflight project linking US and Soviet spacecraft in space

- 15. Highest point of an orbit
- 16. The first series of weather satellites
- 17. Lowest point of an orbit
- 20. Russia's first space station
- 21. The first commercial satellite in 1962
- 22. The first Space Shuttle (flight tests)
- 23. The name of the Space Telescope
- 26. First man to walk in space (last name)
- 28. US manned spaceflight project that put a laboratory in space.

Aerospace Dimensions Module 6

Jeffrey D. Morris, MAJ, CAP

Across

- 29. Developed a heliocentric theory of universe that put the Sun at the center
- 32. This series of satellites locates natural resources and monitors conditions on the Earth's surface
- 33. Probe that flew by Venus and Mercury

Down

- 1. First man in space (last name)
- 2. These probes explored Jupiter and Saturn in the late 1970s.
- 3. US program where first walk in space was made
- 4. Path a satellite takes around a celestial body
- 6. This probe is investigating Jupiter for six years
- 8. The Shuttle that was built last
- 10. These probes took pictures of the Moon in preparation for the manned Moon missions
- 11. These probes explored the environment of Mars in 1975.
- 13. Astronaut on the first US manned spacelight (last name)
- 16. First woman in space (last name)
- 18. In 1611, discovered objects moving around Jupiter and created rules of motion for celestial bodies.
- 19. Greek astronomer that gave us the first theory of celestial bodies.
- 20. Natural or artificial object in space that orbits the Earth
- 24. First man to walk on the Moon
- 25. US first manned space flight project
- 27. Mission where astronauts landed on the moon
- 30. First American to orbit the moon (last name)
- 31. Second man to walk on the Moon
